**February 2009**

Pashmina Bazar is moving ahead in the new year with our beautiful collections. Our customers have shown enormous interest in our products so far, and may have asked us to bring back our sold out items. We will continually improve our collection and always provide the best Online Pashmina Collection for our customers in this year as well.

We continue to be the only and the authentic source of original Pashmina products from the valley of Kashmir. Some of our most beautiful Pashmina shawls, like the one shown on the left, are extremely delicate and made by artisans over an extended period of time, all by hand. This art has fascinated all our customers in today's online world in the same way it enchanted the kings and princes of the middle ages when they first came in contact with the kashmiri Pashmina and popularized it in the Sub-Continent and the West later.

*Pashmina Bazar's growing facebook community is another great source of pride for our business. We have seen constant flow of Pashmina lovers thrive on our Facebook community and we encourage all of you to bring your friends with you when you join our facebook communities. The growing popularity of the Original Pashmina brand of Kashmir is what keeps Pashmina Bazar going each day as. Keep them coming and keep the buzz alive.*
